A NOVIO.O 1180 We are assettly of advices, from all parts of the first open the first of the first open the fir are comparatively poor and compelled to struggle with a forest. Hence, anything that will afford them an opportunity, either before or after planting or harvest, to raise money to be utilized in developing their homesteads, they naturally esteem as a great boon. The wealthing class of farmers may boon. The wealthier class of farmers may not wish to become contractors, or work for contractors; but it is an undoubted fact, contractors; but it is an undoubted fact, that the great majority do desire to have an asnual opportunity to care a little money by road-making. Their little heards have been exhausted, and so other means presents itself to replenish their empty purses, excep the annual expenditure of road appropriations. Under such circumstances, it is desirable that the Government should listen to the reasonable wishes of the farmers; and take means to spend the road money among the means to spend the road money among the means to spend the road money among the residents of each district. For some years past, the farmers have not even been consulted; a flying squadron has done the work, pocketed the money, and in some instances has done work that has produced a very money doctors that has produced a very money doctors that has produced a very money doctors. One Scow as she now lies. great deal of diseatisfaction. Last year, an attempt was made to consult the wishes of the people of Cowichan, as to where road improvements should be made; but the thing was so managed that the settlers had no part was so managed that the settlers had no part in the meeting except listeners. It is therefore hoped that the settlers in each district will be consulted as to where they require the mousy to be expended, and whether they desire it to be given out by contract or not. If these two points be properly attended to, we believe that there will be less complaint in future from the sural districts about the state and management of the public roads than that had been for some years back.

DR. CHING FUN-A CARD-EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, nxet door Kwong Lee & Co. For 24 years I suffered with neuralgis on done me by Dr. Ching Fun of this city, nxet door Kwong Lee & Co. For 24 years I suffered with neuralgis on the brain, which baffled the skull of three first-class: American physicians. Latterly bronehitis attached my right lung, and my eyes became awfully inflamed. Depairing of ever being cured I placed myself as a last resout in the hands of Dr. Ching Fun, and after five mouths treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudily, so that all my countrymen similarly affected may visit him and find relief. Keenectfully. All my countrymen stally, and relief, Respectfully, JOHN HENTON, of Rentucky, U. S. ec23
